LIDDONFIELD PROJECT

The great Northeast neighborhoods of Upper Holmesburg, Torresdale and surrounding communities have a say in what will take the place of the old Liddonfield Projects. Please sign below if you are in favor of the old Liddonfield ground being revitalized by the expansion of Holy Family University with new ball fields, new school buildings and new business. This means jobs, local business development and a safer, cleaner campus that our children, grandchildren and all family members may utilize. We also do not support any housing developments or housing projects other than a senior living development/neighborhood. Please support your community by signing below.
